## Coin Counting and Wrapping Machine WR-500/90

Coin wrappers have become required equipments for CIT/armored carrier companies, mints and other industries in many different countries. Glory WR series have met their needs, with enhanced speed and performances. The WR-500 and WR-90 count and wrap coins smoother than conventional wrappers.

### Continuous Operation

With newly designed coin transporting and stacking units, the WR-500 and WR-90 have realized smoother performance, and have drastically improved continuous operation.

▲ Fully-opened upper and front doors

### Improved Operability

With utilization of built-on LCD control panel, screen visibility and operability were improved dramatically. The processing mode and data contents may be checked quickly and easily. Furthermore, easy-to-understand illustrated operation guide provides accurate and applicable support.

▲ Built-on LCD control panel

▲ Illustrated operation guidance display

### Multilanguage display

Different languages may be selected on the LCD panel, such as English, German, French, Spanish and so on (default is English).

### Advanced detection capability against forged coins and foreign materials\*

Detection against forged coins and foreign materials\* have been improved. A non-designated denominations or foreign material coins are automatically rejected to a dedicated box. It enables WR to keep speedy and accurate counting and wrapping operation.
